# DO YOU SEE ANY FIRE?

Michael Luddeni

**Chanel house A22 in the cemetery at Bab edh-Dhra.** In the final phase of occupation at Bab edh-Dhra, the dead were interred in mud brick buildings called chanel houses. Five examples were excavated, and in each case they were destroyed by fire at the same time the city was destroyed. Careful stratigraphic excavation of chanel house A22 shown here, the largest of those excavated, revealed that the fire started in the roof and spread to the interior when the roof collapsed. This provides powerful evidence that “the Lord rained down burning sulfur on Sodom and Gomorrah—from the Lord out of the heavens” (Gn 19:24).
