March

10.10 Hovering, gone behind cloud.
10.30 Very high, hovering in clear patch of sky between clouds.
10.50 Very overcast. No sign of UFO.
11.04 Heavy rain. IQA !!! (Wedau language...finished)

Data sheet of observation of UFO's., 6.45 to 11.04 p.m., 26/6/59.

(signed) WILLIAM B. GILL.

Altogether there were 38 witnesses of whom 25 signed the report. Apart from Fr. Gill himself they had included 5 Papuan teachers and three medical assistants.

EXTRA NOTES:

Hovering height at 6.52 between 300 and 500ft.

Estimate of apparent diameter. Fr. Gill.5 inches at arms length.

Stephen Moi closed fist at arms length would just cover half the object.

Material it was made of. Fr. Gill, when asked if it were metallic answered,

"Well, it appeared solid, certainly not transparent or gaseous; we just assumed that it was metallic from our experience of things that travel and carry men."

All witnesses agree that it was circular, that it had a wide base and a narrower upper deck, that it had a type of legs beneath it, that it produced at times a shaft of blue light which shone upwards into the sky at an angle of about 45° (see sketch) and that the four human figures appeared on top.

Fr. Gill is emphatic about the absence of sound throughout the whole activity.

About 6.00 p.m. Papuan medical assistant sights UFO in apparently same position as night before.

6.02 Fr. Gill comes out and sees object. Same as last night. but seemed a little smaller - more distant?.

6.02 to 6.17 Crowd gathers to watch the UFO. We watched figures appear on top-four of them - there is no doubt that they were human. This is possibly the same object that I took to be the "Mother ship" last night. Two smaller UFO(s were seen at the same time, stationary, one above the hills, West, and another over-head.

On the large one the figures seemed to be doing something near the ~~maxx~~ centre of the deck - they were occasionally bending over and raising their arms as if adjusting or setting up something (not visible). One figure seemed to be standing with his hands on the "rail" looking over, just as one will look over the rails of a ship.

I stretched my arm above my head and waved. To our surprise the figure did the same. Ananias waved both arms over his head, then the two outside

In the morning of April 14, 1561, at daybreak, between 4 and 5 a.m., a dreadful apparition occurred on the sun, and then this was seen in Nuremberg in the city, before the gates and in the country – by many men and women. At first there appeared in the middle of the sun two blood-red semi-circular arcs, just like the moon in its last quarter. And in the sun, above and below and on both sides, the color was blood, there stood a round ball of partly dull, partly black ferrous color. Likewise there stood on both sides and as a torus about the sun such blood-red ones and other balls in large number, about three in a line and four in a square, also some alone. In between these globes there were visible a few blood-red crosses, between which there were blood-red strips, becoming thicker to the rear and in the front malleable like the rods of reed-grass, which were intermingled, among them two big rods, one on the right, the other to the left, and within the small and big rods there were three, also four and more globes. These all started to fight among themselves, so that the globes, which were first in the sun, flew out to the ones standing on both sides, thereafter, the globes standing outside the sun, in the small and large rods, flew into the sun. Besides the globes flew back and forth among themselves and fought vehemently with each other for over an hour. And when the conflict in and again out of the sun was most intense, they became fatigued to such an extent that they all, as said above, fell from the sun down upon the earth 'as if they all burned' and they then wasted away on the earth with immense smoke. After all this there was something like a black spear, very long and thick, sighted; the shaft pointed to the east, the point pointed west. Whatever such signs mean, God alone knows. Although we have seen, shortly one after another, many kinds of signs on the heaven, which are sent to us by the almighty God, to bring us to repentance, we still are, unfortunately, so ungrateful that we despise such high signs and miracles of God. Or we speak of them with ridicule and discard them to the wind, in order that God may send us a frightening punishment on account of our ungratefulness. After all, the God-fearing will by no means discard these signs, but will take it to heart as a warning of their merciful Father in heaven, will mend their lives and faithfully beg God, that He may avert His wrath, including the well-deserved punishment, on us, so that we may temporarily here and perpetually there, live as his children. For it, may God grant us his help, Amen. By Hanns Glaser, letter-painter of Nurnberg.^[3]
